

PTB #9 - BedRock HD Vehicle Fit Guide

Dear Dealer,

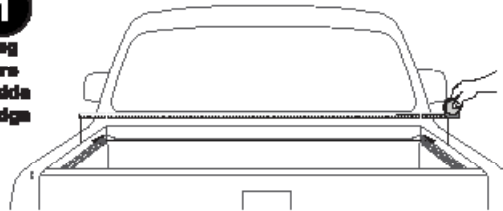

This is a quick fit reference guide to establish the correct BedRock HD kit for a vehicle.

There are two different bar length kits available - one with 172cm bars, the other with 198cm bars.

For further details, please contact your sales rep or customer service on the below details.

Step 1

Use a measuring tape to measure between the inside edge to inside edge of the tub

Step 2

Measure the front and rear of the tub, as measurements may differ

Step 3

Using the larger of the two measurements, determine which kit is needed:

* Up to 147cm, use YBRHD172

* If between 147cm and 170cm, use YBRHD198

Manufacturer	Year	Model	Fit
Dodge	201x	Ram 1500	YBRHD198
Dodge	201x	Ram 2500	YBRHD198
Ford	2011+	Ranger PXII	YBRHD198
